

To focus your searches using OneSearch try the following commands:

*	communicat*	finds articles containing the words communicate, communicating, communication
OR	online OR internet	finds articles that contain either of these words
AND	internet AND censorship	finds articles that contain both of these words
" "	"social media"	finds this exact phrase

Another powerful technique is to search for your topic (keywords) in the title of articles. To do this change the dropdown menu in the AdvancedSearch from "Select a Field" to "TI Title"

Keyword ▼ contains "social media"

Keyword

Title

Author/Creator

Subject

Course name

Course instructor

Course ID

AND ▼

contains news

For the following search example the phrase "social media" must appear in the title of the article and addict or addicted or addiction must also appear in the title.

Be sure to limit the results to "Full Text" and "Scholarly (Peer Reviewed) Journals."
