Using OneSearch to find scholarly articles.

OneSearch can be used to find books, news, magazine articles, videos, music, and scholarly articles.

To find scholarly articles using OneSearch:

1. Go to the UNI Rod Library website

2. Click on the “Advanced” option inside the OneSearch box.

3. Type in your search. If you need to - use your favorite search tricks such as AND, OR, NOT, * and perhaps limit some of the terms to Title, Abstract, or Subject.
4. Click on “Search”

5. After you get your results click on the option for Peer-reviewed Journals

6. **Change** the *dates* if more recent articles are desired.

* For more on this see Week 6 “What You Must Know – How to find a research article.”
