Google News – Advanced Search and Personalization

If you want to control your Google News experience and avoid the Filter Bubble - there are at least three options available:

1. Use Google search commands and techniques such as
   - intitle: allintitle: “quotes”

2. Use the Advanced Search option available in the pulldown menu of the search blank:
3. If you are a regular consumer of Google News - modify what is sent to you with the Personalize options – and to stay out of a Filter Bubble of your own making – change these settings from time to time.
